

STOPAL

Vapour Suppressing Additive

PHYSICAL DATA ●

Appearance / colour	Yellow gel
Concentration of use	6%
Specific Gravity at 20°C (Kg/dm ³)	1.05
Viscosity at 20°C (cStokes)	1600
pH at 20°C	7
Freezing point	-15°C
Sediment after ageing	< 0.1%
Surface tension (mN/m)	25

FOAM QUALITY ●

Low Expansion	10
Drainage time 25% / 50%	15 min.
Medium Expansion	80

Foam Expansion values depend on the equipment

STOPAL

Yellow gel

PERFORMANCE & WARRANTY ●

STOPAL should be applied at Medium Expansion at a minimum application of 10 l./m².mn. Foam blanket should be continuously renewed until spill control.

STOPAL should be used only with tap water.

STOPAL is suitable with all known equipment.

STOPAL has a 5 years warranty in its original packaging and at storage temperatures -30°C / +60°C.
