

TRANSPORTATION KIT

The AQUAFAST transport kit is the ideal accessory for floating pumps. It has been designed to be mounted in seconds, with or without the floater. Finally it will facilitate the launching of the pump in the water and its transport thanks to its off-road wheels.

- ▶ Compatible with all Aquafast pumps
- ▶ Can be fixed on the body pump without float
- ▶ Quick assembly / disassembly without tool
- ▶ Kit suitable for water
- ▶ Usable on any type of ground
