

## Drain Cover PU Chemical Resistant

### DESCRIPTION

Drain cover – 2 layers – made of adhesive polyurethane (self healing) on 1 side, textile on other side (chemical resistant); 4 handles for easy handling, thickness 9 mm.

Reference	Dimensions	Weight-kg	Colour	Chemical compatibility
OBT 5050 PP	50 x 50 cm	2,3	Yellow	Resists to a vast majority of chemicals, including hydrocarbons; except sulphuric Acid which attacks the material during long contact
OBT 6060 PP	60 X 60 cm	3		
OBT 7070 PP	70 x 70 cm	4		
OBT 8080 PP	80 x 80 cm	6,2		
OBT 9090 PP	90 x 90 cm	8,2		
OBT 100100 PP	100 x 100 cm	12		
OBT 120120 PP	120 x 120 cm	13		

### USE & WARRANTY

- Thoroughly clean the ground before installation
- Roll off the cover and put the adhesive side on the drain to protect
- Make sure to leave a minimum of 10 cm around it
- After use, clean the adhesive side with soap or detergent (like dish washing liquid) and warm water to retrieve PU properties and stay flexible
- Roll on the cover – even if humid – and replace it in its protective bag
- In case of long contact with chemical, check if the PU has become hard or changed shape. Replace it if necessary
- Warranty 1 year
