

LITELINE 25

Personal Light Line 25m

SPECIFICATIONS ●

LITELINE 25

Model reference	4BDL-025
Dimensions	H412 x W138 x D93
Weight	1 Kg
Wire Length	25 meters
Wire diameter	3 mm
Tensile strength	2200 N
Luminance	30 Cd / m ²
Thermal stability	-30°C -70°C
Lithium-Ion Battery	DC 7.2V / 5.2A
Body Waterproof class	IP66
Flame retardant	UL94 - V0
Charger	220V/110V @ 50/60 Hz 8.4 V / 1.5A
Operation times	Light on mode 360 mn Light Blinking mode 1 600 mn Light Blinking mode 2 650 mn
Warranty	2 years

Patent registered in USA, Japan, Korea

CHARACTERISTICS ●

Personal Light Line 25 meters. This equipment is used for firefighter's rescue operations inside a building or at night.

A personal light-emitting evacuation guide lighting line that can mark an escape route so that you can evacuate quickly and accurately in thick smoke and darkness.

Strong tensile strength.

Up to six hours duration of usage.

Excellent amount of light for visibility.

3-Step 2-Way signal communication function on flashing visual alarm.

No need to charge for 3 years if not used.
